SUMMARY

Final-year B.Tech. Computer Science student and aspiring Full-Stack Developer with a proven track record of bridging the gap between clean UI design and robust backend architecture. Experienced in translating ideas into functional products by defining user flows, designing data models, and delivering well-structured features. I specialize in the Python and SQL stack to build intelligent, user-centric applications. I am currently seeking a role where I can apply my technical insights and problem-solving skills to deliver polished, scalable digital products.

SKILLS

Languages & Frameworks: Python, SQL, HTML, CSS, JavaScript, Full-Stack Web Development, Responsive Web Design.

Data & Backend: Backend Development, Database Integration (MySQL), Data Analysis (Pandas), Data Visualization (Plotly).

Tools & Platforms: Microsoft Azure (AI/ML), Microsoft 365, Microsoft Excel, Canva.

Soft Skills: Problem-Solving, Team Collaboration, Technical Presentation, Communication.

WORK EXPERIENCE

ICT Academy – OM Sterling Global University, Hisar Nov 2025 – Nov 2025
(Trainee)

- Completed an intensive training program focused on building and deploying AI solutions using Microsoft Azure.
- Gained hands-on exposure to machine learning workflows, cloud-based AI services, and deployment practices.

Zidio Development, Hisar Jul 2025 – Sep 2025
(Trainee)

- I gained hands-on experience in data analysis, data preprocessing, and working with real-world datasets.

DUCAT India, Gurgaon Jun 2024 – Aug 2024
(Intern)

- Completed a data science internship focused on Python, covering data cleaning, analysis, and visualization.
- Earned certification in Data Science using Python while strengthening analytical and presentation skills.

EDUCATION

Galaxy International School, Hisar 2020-2022

- 12th CBSE with 81.2%
- 10th CBSE with 85.3%

OM Sterling Global University, Hisar 2022-2026

- Bachelor of Technology in Computer Science and Engineering

PROJECTS

Blackjack – Casino Game

- Developed an interactive card game using HTML, CSS, and JavaScript with gameplay logic and score tracking.
- Implemented responsive design and dynamic UI for smooth gameplay across devices.

Food Delivery Website

- Developed an amazing website using HTML, CSS and Python.
- For own food ordering platform, for restaurants, cafes, or personal projects.

Weather App

- Created a Python-based analytics web using Python and HTML.
- The Weather App is a simple and interactive application for checking weather of different Places.

CERTIFICATIONS

AI Manthan: Agents at Work — Google Developer Groups Cloud, New Delhi Issued: Dec 2025

- Participated in an AI-focused event exploring intelligent agents and modern AI applications.
- Gained exposure to AI innovation, cloud technologies, and real-world AI development concepts.

Excel Essential Training (Microsoft 365) — LinkedIn Learning Issued: Aug 2024

- Learned core Excel skills including formulas, data organization, and spreadsheet management.

Programming with Python — (Hartron Skill Centre) Issued: Mar 2024

- Completed a 12-week training program focused on Python programming fundamentals.
